## EMPLOYMENT

| **Junior Frontend Engineer** | **Innovectives Group** | **Set. 2022 - Present** |
|---|---|---|

- Building Modern quality and interactive website using React and TailwindCSS.
- Building Modern and fast web app using NextJs and TailwindCSS.
- Leveraging Knowledge in NextJs, TailwindCSS.

| **Junior Frontend Engineer** | **MiraPayments** | **April 2022 – June 2022** |
|---|---|---|

- I implemented dynamic pages by consuming API endpoints.
- Speed up the deployment process by writing quality tests and integrating them into CI/CD bitbucket pipelines.
- I worked closely with the engineering team to develop strategic initiatives for designing, coding, and testing software application.
- I collaborated with designers to maintain high-quality graphic standards and brand consistency.
- I worked closely with the backend developers to deliver a consistent, accurate, and reliable web experience.
- Leveraged Knowledge in React, Redux, Sass, Axios, and Cypress.

| **Backend Engineer, Intern** | **CRUD** | **Dec. 2021 – May 2022** |
|---|---|---|

- I designed an investment platform with Laravel and other tools such as jQuery.
- I created efficient, reusable and testable API endpoints by using Laravel.
- Implemented payments gateway by using Paystack Webhook.
- Implemented some elements of **SOLID** principles.
- I collaborated with the other engineers to oversee the complete web application development lifecycle, from design through delivery and post-launch support.
- Leveraged Knowledge in PHP, Laravel, MySQL, SOLID principles design, Ajax

| **Frontend Engineer, Intern** | **MiraPayments** | **Nov. 2021 – April 2022** |
|---|---|---|

- Worked with the frontend team in transforming the Figma design into reality by using JavaScript library React.
- Designed responsive and interactive user pages using React and other React packages such as Reactstrap.
- Developed reusable codes, functions, libraries, and components for future use.
- Demonstrated effective communication with fellow team members and management.
- Leveraged Knowledge in React and many other React packages, Git, Reactstrap, and Effective communication.
